**DORMA
BST/FBST
COMFORT LINE**

The new standardised
range of curved sliding
doors

**For my customers,
it is not just the
quality that counts
but also the price.**

DORMA BST/FBST COMFORT LINE – the affordable alternative to customisation

Curved sliding doors from DORMA impart a particularly enticing appearance to modern entrances. Their functional efficiency is also especially impressive: for a given overall width, they enable larger clear openings to be implemented than in the case of conventional sliding doors – for which significantly more space has to be incorporated into the calculation.

As an alternative to a tailor-made solution, we can now offer our range of standardised BST COMFORT LINE doors. They offer great value for money plus all the benefits associated with DORMA quality brand products. They are also able to meet a wide spectrum of application requirements with, for example, a choice of six different inside diameters between 2,000 and 3,200 mm.

There are also two different clear heights of 2,200 mm and 2,500 mm. Each door set is available as a 180° or 360° model, and flexible abutment systems are available for connecting the assemblies to the façade.

This basic product line comes with a number of system-inherent benefits including easy ordering, rapid availability and quick delivery. With standardised models, projects can often be completed in a shorter time, enabling contractors to achieve higher customer satisfaction. The BST COMFORT LINE – DORMA quality duplicated in economical series.

The BST is also available as an FBST model for emergency exits and escape routes.

The details at a glance:

- Automatic double-panel curved sliding door
- Inside diameters: 2,000, 2,400, 2,600, 2,800, 3,000 or 3,200 mm
- Clear heights: 2,200 or 2,500 mm
- Canopy height 260 mm, increasing in mm increments up to 500 mm
- Surface coated in RAL colours; anodised finish alternatively available
- Glazing 8 mm toughened safety glass; 8.76 mm laminated safety glass possible
- Upper and lower ceilings in white melamine

The options available:

- Various program switches and selectors
- Electro-mechanical locking
- Mechanical locking at the bottom of the door panels
- Two halogen spotlights in the lower ceiling (including transformer)
- Upper ceiling with shower-proof preparation
- Upper ceiling rain-proof with sheet metal roof
- Floor ring with raised floor track
- Floor ring with recessed floor track
- Various floor coverings
